SAINT-TROPEZ

Welcome

Saint-Tropez can pride itself on international renown, fueled by its rich history and significant cultural and natural heritage. However, it is our responsibility to continually renew our tourist offerings and provide quality events for both our visitors and residents.

The sporting influence of our city is a major focus for our term, and we have chosen to instigate a new dynamic, including the creation of high-level events such as the "Open de Saint-Tropez", the "Masters de Pétanque," and the highly spectacular "SailGP." These new events now allow us to place Saint-Tropez on the map of international sports competitions.

It is this ambition that led us, along with my dynamic deputy in sports, Christophe COUTAL, to bid to host the 43rd edition of the **World Medical and Health Games** in Saint-Tropez, from June 16 to June 23, 2024. This competition will bring together over **1,500 passionate athletes** from around forty countries in the Gulf of Saint-Tropez. I would like to express my heartfelt thanks to the organizers and the neighboring municipalities that have agreed to accompany us on this adventure.

I extend a warm welcome to all athletes in Saint-Tropez and wish them a fantastic competition.

Sylvie SIRI
*Mayor of Saint-Tropez
Regional Councillor*

Christophe COUTAL
Deputy Sports Director of Saint-Tropez

Good competition to all!

With a more than century-old Nautical Society, Saint-Tropez is undoubtedly a major hub for water sports. However, the spirit of sportsmanship in our city is not confined to the water alone. Saint-Tropez has indeed seen the rise of great champions: **Marcel AUBOUR**, goalkeeper for the French national football team, the **TRINQUET** sisters, Olympic medalists in fencing, and **Isabelle DEMONGEOT**, who was the number two in French tennis in the 1980s, to name just a few prominent figures among a large number of Tropezian champions. They all share a common love for their sport and a strong connection to Saint-Tropez at heart.

Saint-Tropez is a city dedicated to sports. In addition to the disciplines offered by our **17 sports unions** and **23 associations**, the municipality strives to develop a rich range of activities for both children and adults. This dynamic goes hand in hand with the improvement of our sports facilities, as was previously the case with the development of the new Marcel Aubour football stadium and more recently with the complete renovation of the multisport stadium in Les Salins, inaugurated in November 2023.

We are proud and happy that these fully renovated facilities can host the 43rd edition of the **World Medical and Health Games**.

Good competition to all. Long live sports!

Pierre LUSINCHI

*Chairman of the Organising
Committee of the World Medical
and Health Games,
CEO of Corporate Sport Organisation.*

Dear Participants, Dear Friends,

After the 2023 edition in Latin America, the MEDIGAMES are back in Europe!

Undoubtedly, one of the most beautiful village in the world, in the southeast of France along the Mediterranean, will host the **43rd edition of the World Medical and Health Games** in 2024.

Welcome to Saint Tropez, where Mayor **Sylvie Siri** and her fantastic municipal team will provide us with an extraordinary welcome.

This village is equipped with all the recent or renovated sports facilities you need to compete in the 21 proposed disciplines.

We are delighted to return to this magical place, which already hosted the 20th edition of the Games in 1999. On that occasion, more than **2200 participants** were present. We count on you in June 2024, **25 years later**, to break this record.

With the entire organizing committee, we are convinced that we will offer you a memorable edition for several reasons:

- In June 2023, our company CSO - Corporate Sport Organisation organized a Football World Cup for Lawyers in partnership with the Tropezian municipality. For 5 days, 1800 lawyers, 89 teams from 44 countries competed on the lawns of the stadiums in Saint-Tropez and neighboring villages. A total success.
- The joy of discovering unique places during various social events: Parade on the port, **Medigames Party** in a globally renowned nightclub, closing dinner at an incredible location in Saint-Tropez, with breathtaking views.
- The diversity of activities at your disposal in the Gulf of Saint-Tropez: preserved nature, sandy beaches, a unique way of life in this village, very trendy shopping, and a renowned nightlife.

Supported by the city of Saint-Tropez, our main partner, I invite you to join the CSO team in June 2024 to collectively write **one of the most beautiful editions in the history of MEDIGAMES**.

A breathtaking golf course

In Grimaud, approximately 10 kilometers from Saint Tropez, the **Beauvallon Golf Club** unfolds its greens and fairways over more than **40 hectares**. It offers a diverse, natural, and remarkably well-maintained **18-hole course**.

Between the sea and hills, you'll appreciate the stunning panoramic views overlooking the entire Gulf of Saint-Tropez.

The course is surrounded by beautiful villas, providing glimpses of the Bay of Saint Tropez, the sea, and boats sailing offshore.

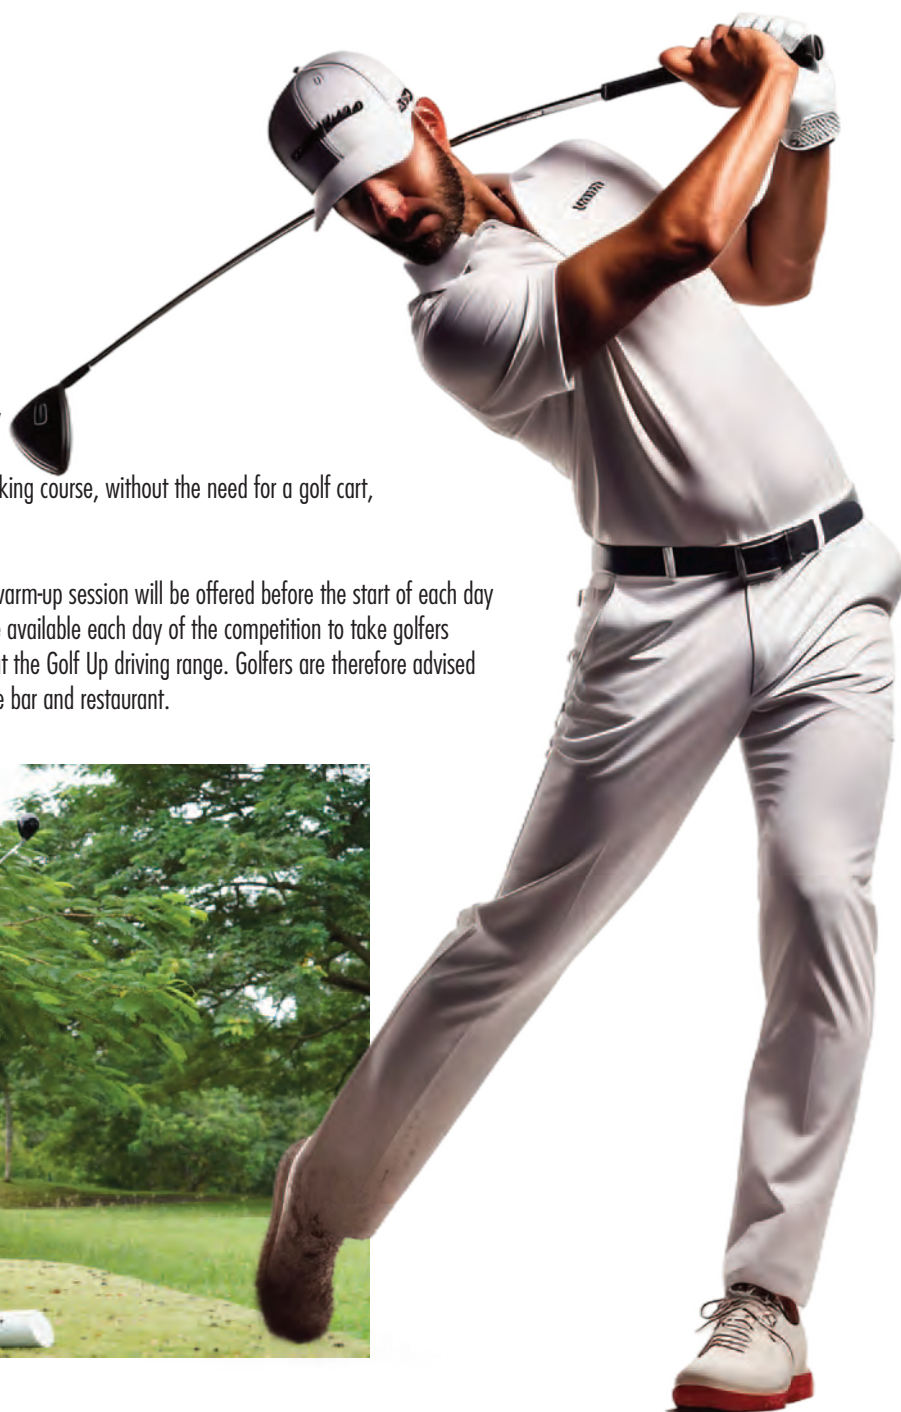

The 18-hole course of Beauvallon Golf Club offers a true golfing challenge

- Fairways lined with oaks,
- Small and very fast greens,
- 2 long par 5s with out-of-bounds on the left side.

Everything is in place to fully express your golf skills and enjoy technically challenging and pleasurable rounds.

The Beauvallon Golf Club delights passing golfers as it is a walking course, without the need for a golf cart, while offering a technical challenge in a majestic setting.

As the Golf de Beauvallon does not have a practice course, a warm-up session will be offered before the start of each day at a nearby partner golf course (Golf Up). A shuttle bus will be available each day of the competition to take golfers from the Hotel Sowell to the Golf de Beauvallon, with a stop at the Golf Up driving range. Golfers are therefore advised to choose Hotel Sowell from our packages on page 20. On-site bar and restaurant.

CLOSE UP on new sports

Padel, the sport that packs a punch!

Padel, a rapidly growing sports phenomenon, is making a strong impact on the world stage, captivating an increasingly large audience with its dynamism and accessibility. Born in the 1960s in Spain, the sport quickly won the hearts of racket sports enthusiasts, becoming one of the most popular disciplines of the moment.

This sport skillfully combines elements of tennis and squash and stands out with its unique format. Courts surrounded by glass and mesh walls offer strategic rebounds, adding an exciting tactical dimension to the game.

What makes Padel exceptional is its accessibility. Whether you're a passionate enthusiast looking for a new challenge or a beginner wanting to try out a friendly activity, the Padel tournament at the Medigames 2024 is designed for you.

3x3 Basketball : urban, dynamic and Olympic

Get ready for some exciting moments this year with a new sport added to the program: 3x3 basketball. An Olympic sport since 2020, this discipline has been rapidly growing in recent years, ranking at the top among urban sports worldwide.

Derived from the free and creative practice of street basketball, 3x3 basketball is built on a modern and dynamic concept of traditional basketball. From playgrounds to international competitions, 3x3 basketball has established itself as an innovative, entertaining, and accessible sport for everyone.
